Two Groups Of Councilmen Meet

Colma Passes Special Resolution

Upon learning of the death of James Murphy, superintendent of Holy Cross cemetery, the city council of the Town of Colma, Monday, passed a resolution of condolence to members of the bereaved family. It was directed that copies of the resolution be sent to the family and that it be entered in the minutes of the meeting.

The action was taken at the regular monthly meeting of the group, meeting at the temporary city hall in the Weisenburger building on El Camino Real. Mayor Paul Delucchi presided, with Councilmen Mattrop Jensen, Peter Barsi, Fred Lane and Bartley Flynn, Clerk E. A. Weisenburger, Treasurer Henry Kempf, and Attorney Charles Gebhardt present.

Also passed was a resolution calling for the regular city election on April 11, at which time the offices held by Barsi, Delucchi and Flynn will be filled. Closing date for candidates to file their nominating petitions is March 11, and the final day when voters may register to qualify for voting at the election is March 2.

Jensen called the council's attention to the Fourth War Loan drive, starting this month, and suggested that further investment of the town's funds be made in these securities. Previous purchases now total \$6000.

To provide insurance for civilian defense workers while performing their duties, a resolution was passed in conformity with a ruling by the state war council.

NEWS OF OUR MEN and WOMEN IN UNIFORM

Good news from the South Pacific arrived here recently for Vincent Brangel, 60 Vendome avenue. His son, Edward W. "Bud" Brangel, has been promoted to the rank of sergeant.

Sergeant Brangel, who has been in the South Pacific area for nearly three years now, is with the Medical corps of the U. S. Army.

The Record received a letter, this week, from Corporal Melvin R. Dykman, former employee, now in North Africa. The letter had been posted, December 6. He seems to feel, like several other local boys the paper's heard from, that Africa's not much of a place.

He said, "I've seen slums back in the states and they would look like heaven to some sections out here. One sees a lot of French and Arabs out here. Sure is colorful. Wish I had taken French in school instead of German. The Germans really took everything they could lay their hands on here—shops don't have anything in them."

Corporal Dykman is the son of Mr. and Mrs. John Dykman, 198 Wellington avenue. Before going overseas, he served at Carlsbad Army Air field, New Mexico, and Fort Knox, Kentucky.

A word of appreciation never hurt anyone's feelings. Therefore, The Record takes pleasure in publishing the following letter from Lieutenant Michael Kerekes, who is now at Camp Joseph T. Robinson in Arkansas.

In addition to the letter below, Kerekes told of meeting Corporal Richard Wilson, also from Daly City, at Little Rock, recently. Wilson had just joined Kerekes' division after a brief rest furlough following his engagement in the Aleutian campaign.

"He and I are old friends and ex-team mates of Jeff's football team of '36 and '37," Kerekes explained.

And here's the letter:

"Dear Editor:

Mail From Home!!—three magic words that can lift a soldier's morale sky high, even after a long, dusty, and tiresome march. The Daly City Record comes under that category.

When I sight that familiar paper in my mail box I get the

Hold Pre-Induction Meeting For Selectees

The office of Daly City Draft Board No. 103 was the scene of a pre-induction meeting, Monday, January 10, for the forty men who reported for service with the armed forces, Tuesday, January 11, as the quota from Daly City area. Names of those accepted for military service will be announced, next week.

Reclassification work on 3-A, 4-F, and 2-C men continues at the local board, according to Mrs. Isabelle Flynn, chief clerk.

Apologies To Elsie

With apologies to Elsie the Cow, this reporter would like to know "Where else in a war-torn world was it as quiet as it was in Daly City last weekend?"

Nothing that could be construed as a major incident occurred over the weekend, peruse police and fire records for the period as diligently as might be. A few drunks, a few family arguments, a couple of lost ration books, nasty-tempered dogs—that about covered the picture.

Board To Help Industrial Users

Owners and managers of Daly City restaurants were advised, this week, by Miss Genevieve Blue, chief clerk at War Rationing Board No. 83-12-3, that a meeting of special interest to them will be held, tomorrow evening, January 14, at the South San Francisco City hall council chamber, Grand avenue, beginning at 8 o'clock. Purpose of the session is to explain any questions institutional users of rationed foods may have about the changed requirements on registration.

Since the proper filling out of forms, R1307 supplement and R1311, will establish their future permanent base, it will be of utmost importance for institutional users to understand them. Miss Blue pointed out.

Mr. Wheeler from San Francisco Regional headquarters will conduct the meeting and questions relative to the new procedure.

It's High Time That Tin Went To School!

Have you been saving your tin cans faithfully?

If you have, now's the time to part with them. This week and next children of the Jefferson Elementary School district are trying to accumulate a whopping total of properly prepared tins for the Salvage for Victory campaign.

Pupils will be glad to take your contributions to school with them—if you've cleaned and flattened and de-labeled them as requested. If no school child lives near you, you may deliver your collection direct to the nearest school.

Here are a list of Daly City schools where tin may be left: Woodrow Wilson elementary, 344 Santa Barbara avenue; Crocker school, 649 Bellevue avenue; General Pershing school, 631 Hanover street; Thornton school, First avenue and Castle street; Jefferson annex, San Pedro road and Alemany street.

Salvage for Victory chairman for Daly City is R. L. Crane jr., superintendent of elementary schools.

Fahey Presides At Monday Session

In the absence of Mayor A. J. Gaggero, who was ill, Councilman John J. Fahey sr. presided at Monday night's council meeting at the city hall. Although a number of problems facing the city were discussed, at length, no final action of any sort was taken at the session.

Passage of the ordinance which will bring local civilian defense volunteers under compensation insurance was delayed until after a special meeting, Thursday night, January 13. At that time the council will discuss the matter with the entire Daly City Civilian War council and then act after final assurance that the new ordinance is "just what we want."

The ordinance which will incorporate all existing ordinances relative to the Daly City Fire department and commissioners was put over until the next regular meeting of the council to allow time to rectify one or two omissions said to exist in the new draft, which has been worked over at great length. Duties and compensation for the commissioners and firemen will be fully outlined in the new ordinance.

The councilmen and several city officials announced that they would attend the Thursday, January 20, meeting of the Peninsula division, League of California Municipalities, at Palo Alto. Mayor Roger Lapham of San Francisco is to be principal speaker.

The gasoline consumption report for December listed 1,035 gallons consumed for the period. The report brought up a discussion of the necessity for keeping all city equipment in "good rolling condition." Councilman Eugene V. Lynch pointed out that replacements will be impossible to get and urged that the mechanical condition of the cars and trucks which make up the city's fleet be checked whenever any indication of using an unusual amount of oil occurs.

Fourth War Loan Drive Starts Soon

Daly City residents were urged this week by the Treasury department to prepare for 100 per cent participation in the Fourth War Loan drive, January 18 to February 15. Every home in the community is asked to purchase extra war bonds during the campaign. The two branches of the Bank of America, the local post office, 6251 Mission street, and the schools stand ready to supply residents with those "extra" bonds which will mean success to the project.

According to the Treasury department it is necessary to sell at least \$5,500,000,000 of the Fourth War Loan quota of \$14,000,000,000 to individuals. This will mean that each community in the nation, Daly City included, must give enthusiastic demonstration of its patriotism by buying war bonds—extra war bonds—during the campaign period.

Announce Jeff Student Speakers

Students who will address their classmates, parents and friends on the night of Jefferson Union high school commencement exercises, February 9, were designated, this week.

Marie Smith, class president, will give the address of welcome; Bianca Ratto and Donald Nelson will give the principal addresses of the evening, while Albert Chelone is to give the farewell address.

The senior ball for the class of February '44 is to be held, Friday, January 28. The senior jinx is set for tomorrow, January 14. Nelson is chairman for the fun-provoking event.

Battle of Tarawa Told In Pictures

U. S. Marine Corps Photos

Many valuable pictures were taken by daring Marine Corps combat photographers during the bitter Battle of Tarawa, including the three reproduced above. Upper photo shows a group of Marines assembling on the beach after surviving terrific gunfire. American dive-bombers are overhead. The brave group, center, advances toward Jap machine-gun nests which they succeeded in wiping out shortly after the picture was taken. A squad leader points out direction of Jap nest. In lower photo, two Marines man a machine-gun amid wreckage as a third Leatherneck lays aside his rifle to assist them.

"Sky's The Limit" Opens At Daly City

Sparkling with gaiety and laughter and breath-taking dancing from start to finish, "The Sky's the Limit" opens at the Daly City theatre tonight to prove that Fred Astaire and Joan Leslie make a delightful and unbeatable team—in the right kind of vehicle!

The two favorites, here brought together for the first time, turn in grand performances in their engagingly romantic roles. Fred is an ex-Flying Tiger pilot on a brief leave before going into the Navy's air service, and enjoying himself in civilian attire during his few days in New York City. Joan is a photographer for a picture magazine, anxious to do something for the war effort and impatient of idle young men with no apparent purpose in life.

Naturally when the two meet there are fireworks, for Joan doesn't approve of Fred's seeming lack of interest in the war. But his unconventional methods intrigue her interest and a romance swiftly springs up, complicated by the fact that Joan's wealthy employer wants to marry her also but doesn't quite know how to go about it. Moreover, an attack of conscience cramps Fred's style when he realizes that a service pilot in wartime hasn't much to offer a girl who would like a live husband.

The outcome of it all is wrapped up in suspense and fun in delightful fashion, while Fred not only does some of the finest dancing he has ever exhibited before the cameras, but proves to have an ideal partner in the graceful and lovely Joan. Robert Benchley is splendid as the third corner of the triangle, and three catchy Johnny Mercer-Harold Arlen tunes and three spectacular dances enliven the proceedings in a memorable way.

David Hempstead produced the film for RKO Radio with E. H. Griffith directing it adroitly. Robert Ryan, Elizabeth Patterson and Richard Davies stand out among the supporting players, and Freddie Slack and his orchestra help to make the picture a really brilliant piece of screen fare.

ure will be answered in full.

Miss Blue reminded Daly City housewives that Spare Stamp No. 2 in War Ration Book Four is good for 5 points toward the purchase of fresh pork and all types of sausage through January 15.

Local shoe stores will be able to sell, ration free, at \$3 or less a pair, 15 per cent of the stock of women's shoes listed in their September inventory report to OPA.

This action is being taken to allow dealers to clear their shelves of novelty and inexpensive shoes for which women have been reluctant to spend ration stamps, according to OPA. It applies only to shoes not exceeding \$3 per pair in price.

Like to wash a railroad car behind the ears?

Men and women. Down at the S. P. yards, there's a BIG job waiting for you—big as a railroad car. The job is keeping cars spick and span . . . hosing 'em down on the outside, using a squee-gee on the windows . . . really washing 'em behind the ears. Healthy outdoor work . . . war work because these cars are doing a war job. You don't need experience. Job's easy to catch on to. Kind of exciting, too . . . because you're in the middle of things . . . you're doing a vital railroad job. Remember, this is a job with a big, permanent company. It's urgent. You're needed right now. Liberal age limits.

FRIDAY WAS COSTLY DAY AT COURT

At Friday's city court session, January 7, Judge William J. Sweeney meted out a larger than usual number of fines, some of them on the definitely "expensive" side. Drunken driving, most frequent offense, was also the most costly.

Miss Kay Hintz, 34 Turk street, San Francisco, had the charges against her reduced from drunken driving to reckless driving and was fined \$75. Damages to the car she hit were assumed by the insurance company of her boss, the man who owned the car. The auto belonged to Lieutenant W. W. Olsen, former Daly City dentist, now stationed at Pittsburgh.

Martin Lewis, 43 Mateo avenue, Daly City, paid a fine of \$50 on C. V. C. 502, drunken driving. Alternative would have been 25 days in jail.

Mrs. Albertina MacIntosh, 1701 Turk street, paid \$50 for reckless driving, reduced from a charge of drunken driving.

Mrs. Belle Carbaugh, Candlestick road, paid a \$50 fine on a charge of drunken driving, as did Marie Hungerford, Colma. The latter was also instructed to take care of property damages occasioned when she knocked down a palm tree in front of 47 Vista Grande avenue.

Clarence Colhour, 1135 Persia avenue, San Francisco, who had been haled into court on charges of being drunk in a public place and disturbing the peace, was fined \$35. On the same pair of charges, Cecil and Mace Collins, 144 Paris street, San Francisco, forfeited \$25 bail each.

Alvin Wright, 72 Vendome avenue, and Carl Johnson, 36A Casselli street, San Francisco, both paid \$10 fines for violation of City Ordinance No. 209.

Antone Kenra, 222 Los Olivos avenue, Daly City, who had been put in jail for being drunk in a public place and disturbing the peace, kicked the door of his cell so hard the hinges were sprung. His fine was \$25 with an additional \$7.50 to pay for the damaged cell.

Other Friday fines included: Arthur Alviso, 922 Huron avenue, San Francisco, improper parking, \$5; Joe Icardi, 129 Bertita street, San Francisco, speeding, \$7.50; Stanley S. Schmidt, 3331 Kirkham street, San Francisco, driving left of center line, \$5; L. Picini, 187 Mateo avenue, Daly City, repeated overnight parking, \$10; Louis Goodson, 124 Parkview avenue, Daly City, overnight parking, \$2; G. B. Harris, 97 Parkview avenue, Daly City, overnight parking, \$1.

placing the workers under the compensation act.

The Murphy resolution read as follows:

"At our regular meeting of the Town Council of Colma, Councilman Bartley Flynn informed us that Mr. James Murphy, superintendent of Holy Cross cemetery, had passed away during the night.

"It is with a deep feeling of regret that we as Councilmen of this memorial city learned the sad news.

"We wish to extend to the bereaved family, from each and every member of this board, together with the officers of the Town of Colma, our most sincere sympathy.

"They are not dead; They have but put off their shoes, softly to walk by day within our thoughts; To tread, at night, our dream-land paths of sleep.

"They are not dead who live in hearts they leave behind, In those whom they have blest they live again and shall have eternal life.

And grow each day more beautiful as time declares their good.

Forgets the rest and proves immortality."

"We are deeply shocked by this sudden passing and again wish to extend our sympathy to his family.

(Signed) PAUL DELUCCHI, Mayor
E. A. WEISENBURGER, Clerk."

Investigate Black Market Coupons

Starting January 15, service station operators who continue to accept unendorsed gasoline coupons will find themselves gradually going out of business for lack of supplies, the Office of Price Administration said today in announcing a drive against the use of illegally-transferred coupons.

The check-up on "black market" coupons will be made by OPA rationing officials at banks, where sheets of the coupons, bearing the operator's name, are deposited by oil distributors.

Gallage represented by the unendorsed coupons will be ordered deducted from the ration account of the depositing distributor who, in turn, will be forced to call upon the offending station operator for valid stamps.

Thus, an operator who accepts unendorsed coupons for 500 gallons would eventually find himself short that amount in his inventory. Subsequent acceptance of illegal coupons would further reduce his supply.

The OPA regulations require that a motorist inscribe the license number and state of registration on each coupon immediately upon receipt of his book from the rationing board. This practice also protects the motorist in the event of loss of the book, OPA pointed out.

OPA said the willingness of some operators to accept unendorsed coupons has resulted in many B and C book holders giving away or selling excess coupons. It is this phase of the gasoline "black market" that OPA hopes to curtail by refusing to honor unendorsed stamps.

Nope, There Was No Extension of Time

Delay in delivery of windshield stickers denoting registration of automobiles for 1944 does NOT mean that motorists can delay beyond February 4 in making applications for renewal and paying license fee, without being subject to penalties of increased fees.

Stickers, unavailable until late this month due to manufacturing delays, will be mailed to applicants by the State Department of Motor Vehicles later. This had led to erroneous reports that renewal registration period has been extended beyond the deadline.

The California State Automobile association pointed out, today, that no extension of the renewal period is allowed by state law since the Vehicle Code requires collection of penalty fees on renewal applications after February 4.

Motor vehicle owners are being given a temporary receipt, pending sticker delivery, when renewing registration at Motor Vehicle Department or Automobile association offices. Applications by mail are being advocated to save tires, gasoline and car travel.

Club Committee Takes Next Week

Hillcrest Circle No. 143, U. A. O. D., topped off its week at the Daly City Servicemen's club, 6201 Mission street, Saturday, January 8, with a social and the presentation of prizes to the boys. Currently, the Daly City Fire department is taking charge. Their week concludes Saturday, January 15.

The club committee, Mrs. Maizie Boyle, Mrs. Anne Eason, Mrs. Margaret Steele, will assume hostess duties during the week of January 16 through January 22. Big event for that week will be a barn dance on Saturday night, with one of the boys from a nearby camp conducting the event.

The Daly City Unit No. 410, American Legion auxiliary, will be hostess organization at the club January 23 through January 29.

As a special feature, the Women's Civic club is supplying a home-made cake (a big one!) on the fifteenth of each month in honor of boys whose birthdays occur during the month. Notices of this added attraction will be posted at the camp and at the club. The custom will be inaugurated January 15.

Manufacturers Get More Shellac

Recreation on the home front came in for War Production Board consideration today with the announcement that shellac for re-surfacing bowling alleys and for the production of phonograph records has been allotted to manufacturers in substantial quantities for the first three months of 1944.

Bowlers will be looking down slightly darker alleys, however, as bleaching shellac, banned by war needs, are replaced by the lemon grades of deeper hue. Disc manufacturers will get 50 per cent of their 1941 supply (first quarter) of shellac which more than doubles their fourth quarter allocation in 1943.

IS DEBT HARMLESS?

A leading exponent of the public-debt-without-limit philosophy reiterates that, "If the national debt is all internal, as ours is, the nation can hardly go bankrupt."

This philosophy will require more and more explaining as time goes on. People whose earnings and savings are reeling under the double impact of taxes and inflation, are going to ask some questions that will be hard to answer. Not being accomplished economists, they will inquire why, if the size of the debt is unimportant, should they be asked to pay heavier taxes as the debt increases? And why, if it is merely a matter of owing the debt to ourselves, should the tax collector be so merciless in collecting to the last penny?

The "owe ourselves" theorists have always claimed that as the debt grew, the affairs of the country could be so arranged that the debt would actually be beneficial. They call it a managed economy. Today we have a huge and growing debt plus a managed economy more complete than the believers in harmless debt ever dared hope for. We also have confiscatory taxation, uncontrolled strikes, rising prices, and shortages of everything from shoe laces to locomotives. The people are nearly convinced that the managed economy is a flop, and they are beginning to wonder just how harmless is debt. At any rate, they are demanding that government economize wherever possible; that is something tangible which they can understand.

The people in their collective wisdom may save the nation.

THE "IMPOSSIBLE"

A German officer, captured in the Tunisian campaign, asked to be shown the "secret weapon" that made our artillery fire so deadly accurate.

There was no secret weapon, but back of that amazing accuracy is a story—a story of an "impossible" achievement.

Prior to the war, 90 per cent of our precision lenses came from Europe—chiefly from Germany. We couldn't approach the German skill in this line—so we thought. Then came the war. Something had to be done.

Starting from scratch in the mass production of precision devices—gunsights, periscopes, binoculars—the prism on some of which have to be accurate down to 2/1,000,000ths of an inch, American manufacturers didn't know it "couldn't be done"—so they did it. Now our products are superior to the best the Germans ever turned out.

Ever since Pearl Harbor, and even before, the "impossible" has been the rule not only in production but in the whole range of business. Just as we had to manufacture products almost completely foreign to us, so we had to develop new methods of business to solve other war-created problems.

When rationing began, the nation was launching into waters completely strange to us. American banks were called upon to keep the huge program in order. They had to develop an entirely new system to handle ration accounts for food dealers and others who received or paid ration stamps in their business. The scope of this undertaking is reflected in the fact that California's statewide branch banking system alone serves over 60,000 such accounts involving millions of transactions annually.

America is bigger than it was two years ago, more conscious of what it can do, and more than ever aware that there is no "impossible."

IN DANCING ROMANCE

Fred Astaire waited months to get Joan Leslie as his new dancing partner, and RKO Radio waited a like time before being able to co-star the two in its newest screen musical, "The Sky's the Limit." Above, the two are caught in a whirling moment from this gay dancing romance, which is said to top anything Astaire has done on the screen in many a day. Music is supplied by Freddie Slack and his orchestra, and hit tunes written by Harold Arlen and Johnny Mercer were incorporated in the body of the screen-play, currently at the Daly City theatre.

READING & WRITING

BY Edwin Seaver AND Robin McKown

Novels with a religious theme have been among the notable best sellers in the past few years. First to make its mark was "The Nazarene," by Sholem Asch, which was a Book-of-the-Month Club selection in 1939. Two years later, "The Keys of the Kingdom," by A. J. Cronin, also a Club selection, was the number one best-seller for many months, as was still a third book-of-the-month, "The Song of Bernadette," by Franz Werfel, the following year. "The Robe," by Lloyd Douglas, which has proved phenomenally popular, was also published in 1942, and now Sholem Asch's new novel, "The Apostle," is meeting with the same public favor.

First of these big novels to reach the screen is "The Song of Bernadette," with Jennifer Jones playing the role of the French peasant girl, Bernadette Soubirous. "The Keys of the Kingdom" is also in production, and "The Robe" is likewise on Hollywood's schedule. It will be interesting to see if the motion picture versions of these novels meet with the same kind of popularity as have the books they are based on.

Albert Spalding, in his autobiography, "Rise to Follow," tells this story on himself. During a recent tour, he was on a train going West and had shut himself up in his compartment to practice. A friend, who was waiting for him outside, noticed a girl across the aisle who looked very unhappy. He asked her what the matter was. She indicated the compartment where Spalding was. "Don't you like music?" the man asked. "Music!" she snorted. "You call that music?"

He said it sounded all right to him. "There is nothing so painful," was the severe reply, "as inferior violin playing to ears accustomed to the best . . . if you want to hear what the violin can sound like," she added pointing to an advertisement in a Los Angeles paper, "I advise you to attend this concert." The advertisement was for a forthcoming concert by the famous violinist, Albert Spalding.

Eddie Cantor in his introduction to "World's Book of Best Jokes" says that his favorite Dorothy Parker story concerns her visit to the country estate of some friends for the week end. It was so boring to her that she almost immediately sent the following telegram to a friend: "Please send me a loaf of bread—and enclose a RAY and file."

BETHLEHEM STEEL EMPLOYEES SHARE HONORS IN SETTING RECORD

Three hundred thousand men and women from all parts of the country are sharing the Bethlehem Steel company's honors in having achieved the greatest shipbuilding record in history during the year 1943—380 fighting and cargo ships.

The government has permitted Bethlehem to reveal the fact that it exceeded in output its promise, which seemed fantastic when made at the beginning of 1943, that it would turn out a ship a day of major fighting and cargo craft.

The remarkable program carried out by Bethlehem included a 35,000-ton battleship, 27,000-ton

aircraft carriers, 14,700-ton aircraft carriers, 13,000-ton heavy cruisers, 10,000-ton light cruisers, 6,000-ton light cruisers, 2,100-ton destroyers, 1,620-ton destroyers, destroyer escorts, tank landing craft, infantry landing craft, and many types of cargo ships including a large number of Liberty ships and Victory ships.

The value of the year's work was equivalent to over 1,000 Liberty ships and, in terms of man-hours, the company estimates the 1943 program was equivalent to the construction of 22 battleships. Approximately 70 per cent of the ships built were fighting craft

and 30 per cent cargo vessels.

In addition to the amazing production record of new ships, Bethlehem yards also repaired, converted and serviced over 7,000 vessels, thus playing a major role in keeping our fighting fleets in trim.

Approximately 300,000 men and women were employed by Bethlehem in its shipyards, steel mills and other divisions to accomplish this program. But because the company has set its sights still higher for 1944 it will be necessary to add still more to its present army of employees.

"Ships are essential to Victory, and we shall continue our job of building them at record pace in 1944." — E. G. GRACE, president, Bethlehem Steel Company

Bethlehem in '43 built 380 fighting and cargo ships.

Value of the year's program equivalent to 1,000 Liberty ships.

★ ★ ★
"A SHIP A DAY," with a number to spare, was the record production delivered by Bethlehem in 1943 to the United States Navy, the British Navy and the U. S. Maritime Commission. This program was the greatest in magnitude and diversity ever accomplished by a private builder in the world's history. It marked the fulfillment of a promise made by Bethlehem a year ago to build in 1943 an average of "a ship a day" of major fighting and cargo craft.

The list of ships includes aircraft carriers, cruisers, destroyers, virtually every type of fighting craft, as well as a large number of Liberty ships and other cargo vessels. In addition, Bethlehem ship repair yards converted, repaired, and serviced over 7,000 vessels, a vital contribution toward keeping the Allied fleets in fighting trim.

Measuring the program by Liberty ships, a battleship is equal to forty Liberty ships; and the value of the year's work in Bethlehem's shipbuilding division was the equivalent of over 1,000 Liberty ships.

Part of National Program — Bethlehem is permitted to publish these facts as part of our country's total program. Led by the U. S. Navy and the U. S. Maritime Commission, America's shipbuilding in 1943 has been a national triumph of production.

We salute our fellow shipbuilders and their distinguished records.

We thank our thousands of suppliers whose efforts have been essential to our contribution.

We congratulate the men and women in the Bethlehem organization, in shipyards, steel plants, factories, mines, and in every division, all of whom have had a part in this effort.

Harder Task Ahead — The year's work in Bethlehem's shipyards, steel mills and other departments has been done by 300,000 men and women. More will be needed. Already a larger shipbuilding task has been assigned to us for 1944. We shall undertake that job with the knowledge that it must be done, at maximum pace, to hasten the day of Victory.

★ 38 TYPES OF SHIPS ★ Program 70% Fighting Craft, 30% Cargo

Bethlehem's total wartime shipbuilding program includes approximately 1,000 fighting and cargo ships, 70% of the program being in fighting craft, and 30% in cargo. These are of 38 different types including the following:

DALY CITY COUNCIL

(Continued from Page 1)

demnation proceedings against properties in dangerous and untenable condition along Mission street between Parkview and Westlake avenues was considered at the suggestion of Councilman Edmund Cavagnaro. The city attorney, F. E. Hoffmann, said he saw no reason why Daly City's ordinance for condemnation proceedings would not stand and recommended action if the city council wished to follow through on the matter. No further steps were taken at Monday night's meeting with the exception that Building Inspector Arthur J. Bodien was advised to bring in a list of properties in the city which have been in a condition demanding condemnation proceedings for some time.

Means of protecting residents from possible falls where there is no railing along the Mission street sidewalk, right hand side traveling toward Westlake avenue, were considered. It was pointed out that the city would probably be liable if someone fell from the sidewalk down the steep embankments occurring along the stretch of Mission street. Offsets in the sidewalk which might cause passersby to trip were also brought to the attention of the councilmen.

The council heard a report from Superintendent Bodien that the water department's new sand settling sump is working well and gives every indication of solving the water works' problem of sand in the meters. Mayor Gaggero personally inspected the new structure as did Councilman Howard McHugh.

Mrs. Anne Eason and Mrs. Maizie Boyle, representing the Daly City Recreation committee, reported to the council on the Christmas Theatre party for children of the community and on the Daly City Servicemen's club. They thanked the city for its donation to the servicemen's club and told of the success which the club is having in meeting the recreation needs of members of the armed forces stationed in this area.

The council, adjourning until Monday, January 17, on the motion of Councilman Lynch, adjourned out of respect to David Archer, Oakland, a friend of the City of Daly City. Archer, chief consulting engineer for the Simonds Machinery company of San Francisco, had long been interested in the city's water works and gave much advice of great benefit in the early days of the municipal system. He passed away, Saturday. He had been a visitor at the city hall only the day before.

Port Issues Reminder On Mail

In the interest of speeding delivery of mail to merchant seamen in the transport service of the Army, a reminder on the correct addressing of such mail was issued today by headquarters of the San Francisco Port of Embarkation.

Communications to personnel employed or assigned aboard vessels manned by the Transportation corps, either civilian or military, must contain in the address the name of the ship, if the ship operates from United States mainland ports. Many correspondents fail to do this, in the mistaken belief that use of the ship's name is forbidden.

The correct form for addressing such mail follows:

Mrs. T. Smith
1022 Marble Street
San Francisco, Calif.
John T. Smith
USAT George W. Goethals
c-o Postmaster
San Francisco, Calif.

Mail for personnel on ships operating from West Coast ports should be addressed in care of Postmaster, San Francisco; from East Coast ports in care of Postmaster, New York, New York; and from Gulf ports in care of Postmaster, New Orleans, Louisiana.

In the case of personnel assigned or employed on vessels based outside the continental United States, the name of the ship will not be used. Such mail should be addressed as follows:

John T. Smith
Transportation Corps
APO (number)
c-o Postmaster
(city as designated)

Personnel aboard Army-operated vessels are instructed NOT to include in the text of their letters any reference to the names of either their own or other ships, movements of ships, ports touched, or any similar information. They may, however, use the ship's name to include in their letters the proper form of address for use by their correspondents in sending mail to them. This exception does not apply to personnel on vessels based outside the continental United States. The name of the ship may not appear in the sender's return address on the outside of the envelope. This return address should list only the sender's name and home address if within the United States.

Because of lack of understanding of the correct addressing of such mail, hundreds of letters are misdirected each week and many must be returned to the writers.

Will Begin Use Of Ration Tokens Soon

Mrs. America's point stamps still will bring her about the same amount of rationed foods after the new ration token plan goes into effect the latter part of February, according to the OPA. At the present time consumers get ration stamps in the amount of 64 points per month for meats and fats, and 48 points for processed foods. When the new plan goes into effect, all stamps will be worth 10 points each. Three stamps will become valid at the beginning of each two-week period for meats and fats, making a monthly total of 60 points.

Five processed food stamps will be validated each month, making a total of 50 points. But shifting of point values will make up for the difference in total points. Meats and fats points are expected to be dropped slightly and processed foods points probably will be upped. So Mrs. America should come out about the same—except she'll get tokens worth one point in change, and these tokens will have no expiration date.

Servicemen

(Continued from Page 1)
same feeling as if it were mail from home—and in reality it is just that! It gives us servicemen many items of interest and note that our busy, defense-working folks haven't the time to write us about, for example: news of former school pals now in the service, events and happenings at good old "Jeff," new business houses springing up all over Daly City, changes in civic leaders, "blessed events" of our friends and neighbors—I could go on almost endlessly. In other words The Record acts as a connecting link between our past civilian life and our present one in the Service.

There isn't a copy I receive that doesn't have several interesting articles about persons and places well-known to both myself and my wife, who is here in Arkansas with me.

Just a small, unimpressive looking newspaper, but yet one that more than fills its purpose—that old saying 'Good things often come in small packages' sure fits The Record. Keep 'em coming!

Gratefully yours,
Lieutenant Michael P. Kerekes,
Camp Joseph T. Robinson,
Arkansas."

MAE WEST—is U. S. war slang descriptive of a tank with two turrets; also a life preserver worn high under the armpits. Millions of us won't ride tanks or cross the ocean so we must do our part on the home front and buy War Bonds to the limit to back the attack of our invasion forces.

Junior Red Cross Display Installed

Work of the Junior Red Cross of Daly City is now on display in the front window of McGraw Brothers pharmacy, 6300 Mission street. Parents and friends of the youngsters who comprise the hard-working local unit are especially invited to see the collection of typical articles.

To a Machinist in this area

Ever see a locomotive driving rod or piston close up? Best steel there is. Same goes for other railroad equipment. And the men who keep 'em going are machinists who know their work's vital in this man's war. Now Southern Pacific has some swell openings for machinists at the S. P. shops. Top railroad jobs and as interesting as any you can name. (Railroading's that way. It gets in your blood.) Pay is good. Fine medical services. A real pension plan. If you want not any job, but a good job with a permanent company, look into this. We think you'll like working for S. P. Liberal age limits. Other good jobs open, too:

last. Keep them
in repair!

Look over all the appliances in your home. Check particularly those appliances you use constantly, like the range, vacuum cleaner, refrigerator, washing machine and iron or ironer. Do any of these need repair or conditioning? Durationize your appliances with constant care and timely repair. That also means careful use to avoid abuse. Blasting your radio at full volume, for example, can shorten its life. Use it, but tune it down. Open your refrigerator door as seldom as possible. Keep your fireplace damper closed when heating equipment is in use. It prevents heat waste up the chimney. Your government wants your present appliances to last for the duration. Their services save you time and money.

How to Make a Better Cup of Coffee

EXPERIENCED brewers of really good coffee know there are only a few rules that must be followed:

- 1 They keep their coffee-making equipment CLEAN—washing it daily with soap and hot water, and rinsing it thoroughly.
- 2 They use coffee of the right grind and they use ENOUGH of it—at least a generous tablespoonful for each cup.
- 3 They brew their coffee by the CLOCK, timing it exactly to get results they know from experience will be most satisfactory.
- 4 They buy coffee which is GOOD and FRESH—choosing quality because they know a pound will average about 40 cupfuls, demanding freshness because staleness is coffee's greatest enemy.

If the coffee you make "leaves something to be desired", try those four simple rules!

Feature Eighty Beauties In Folies

Dazzling dance sequences featuring eighty gorgeously costumed girls are part of the gay entertainment of the Folies Bergere now playing nightly at Winterland, in San Francisco.

All dances for the brilliant new show were directed by Aida Broadbent, famous danseuse and dance director in direct cooperation with Clifford C. Fischer, producer of the Folies Bergere.

Under Miss Broadbent's direction, the eighty beautiful girls, chosen for their beauty, talent and variety of type, perform rollicking polkas, exquisite ballet, and the daring French Can-Can.

The English born dance director says she has been dancing all her life. She was premiere danseuse and choreographer for six seasons at the Hollywood bowl where she holds the attendance record for ballet night at the bowl with her presentation of Ferde Grofe's Grand Canyon Suite in 1937.

Dance sequences for Anna Neagle in RKO pictures were staged by Miss Broadbent, as well as the routines for the moving picture "In Old Oklahoma."

Like many of the Folies' internationally known company, Miss Broadbent toured the Orient in 1936, when she danced in and directed the entire show. She directed all dance numbers for the Canadian Army show which broke all attendance records in Canada and is now enroute overseas.

Eloquent Line

EASY STYLE and exquisite detail, trademark of Howard Greer's cinema creations, are shown in the model chosen for evening broadcasts by Gracie Allen, star of CBS "Burns and Allen" show. Paillettes fill the center of the gold-outlined design which emphasizes soft, sculptured shoulders and trims front pockets. The striking motif is repeated on the dress of this two-piece costume.

For That Afternoon Snack

THOSE of you who love coffee... and who doesn't... will be delighted with these little coffee-flavored sponge cakes. Served with iced coffee they are perfect when you are a bit hungry in the late afternoon or evening and feel the need of a bit of nourishment. Be sure to get the most out of your coffee by making it fresh each time you serve it. It's wise to make the coffee a bit stronger than usual to allow for melting ice.

Out of the ordinary are these little Coffee-Flavored Sponge Cakes. A small amount of leftover coffee will do the trick and the result is delicious. They are very quick to make, requiring only 20 minutes in the oven. Also they need no shortening, which is a most important item these days. Serve them with iced coffee for that afternoon or evening snack. Here's the way to make Coffee-Flavored Sponge Cake:

Coffee-Flavored Sponge Cake

1 cup sifted cake flour
1 teaspoon bak. ing powder
3 eggs
1 cup sugar
1/4 cup hot leftover coffee

Mix and sift flour with baking powder and salt. Break eggs in bowl, add sugar, and beat until very light and fluffy. Add coffee and beat again. Fold in flour gradually. Bake in small greased muffin pans about 20 minutes in moderate oven (375° F.) Yield: 2 1/2 dozen small cup cakes.

BROWN POINTS FOR WASTE FATS

For every pound of fat a housewife turns in to her meat dealer or other fat salvager, she receives two brown points, beginning December 13. "But most important," Herbert M. Faust, director of WPB's Salvage division said, "within a month the fat will be transformed into war materials and on the way to the fighting fronts." He reminded housewives to save the grease from turkeys, geese, ducks, and chickens, for the manufacture of war products.

Bare Shoulder Vogue

DAYTIME hemlines and nighttime décolletage, the memorable evening fashion of the year, give impetus to holiday dressing ritual. Foliage green crepe was chosen by CBS singer Sally ("Sammy Kaye Show") Stuart for special dine-and-dance dates. Glove like sleeves and self-material corsage give rich but simple character to the silver-slim lines. (From Saks-Fifth Avenue, New York.)

"War to the teeth" is pat in its place . . . but not down the gear-way in the car your country needs as well as you. At the first sign of trouble of this . . . or any car-kind . . . get in motion as easily as you can, and steer our way. And why not let us schedule you for periodic inspection, and avoid this sort of thing?

LUCCA MEAT MARKET

HOURS: 9 A. M. to 6 P. M.

Ration points and dollars buy more meat when you spend them with a reliable, conscientious dealer. Prime quality and cuts "made to your order" have been standards upon which were built our successful meat department, and which mean more to your advantage today than ever before. Let LUCCA'S MEAT MARKET help solve your food problem.

In spite of wartime difficulties, we do maintain delivery service for feeds where it is impossible for the customer to carry home his purchases. We do this as a patriotic effort, one of our ways in which to keep the home front "clicking" while our men are fighting "out there."

However, we must ask that whenever possible, feeds be picked up at our store. Please do not ask us to unnecessarily expend vital manpower and transportation to carry these purchases. Doing your part in this will be a great favor to us, as well as aiding the war effort.
